Directors' Report

In the name of Allah, the Most Beneficent, the Most Gracious, the Most Merciful. On behalf of the Board of Directors of Sitara Chemical Industries Limited, we are pleased to present the un-audited condensed interim financial statements of the Company for the third quarter ended March 31, 2023.

BUSINESS OVERVIEW:

During the period of nine months under review, Company recorded a net sales of Rs. 20,138 million and gross profits of Rs. 3,171 million as compared with net sales of Rs. 15,431 million and gross profits of Rs. 2,097 million in the corresponding period of last year, witnessing a growth of 30.5% in net sales. Growth in net sales revenues is attributable to passing on the impact of increased cost of production, particularly energy cost, in finished products sale prices. However, quantitative sale of caustic remained on lower side during the period under review due to slump in textile sector. Local prices of Oleo chemical products also remained higher in local market as compared with prices in same period last year due to problems of opening LCs of Palm oil and related raw materials. Export sale's net-back prices also witnessed a growth after significant PKR devaluation against USD during the period under review as compared with same period last year, resulting into creation of an export opportunity for the company which your company capitalized under the circumstances and made higher quantitative sales of caustic soda flakes and calcium chloride prill 94% in export market. Overall gross margins of the company remained higher during the period under review to 15.7% as compared with 13.6% of last year's corresponding period due to the aforementioned factors.

In textile segment, due to the declining exports of textiles in general and home textiles/knitting in particular from Pakistan to the US/EU market, the sale of yarn was slow to the export oriented sector putting pressure on prices, which led to reduced quantitative sales during the period under review compared with the same period last year. However, the third quarter of the current financial year witnessed some recovery as the company was proactive in forecasting and covering its major raw materials like Cotton and Viscose, thus gained due to PKR devaluation and have not suffered from the LC opening crisis. Decline in gross margins in textile segment during the period under review are due to non-availability of gas from the SNGPL leading to capacity underutilization, drastic increase in the prices of polyester fiber particularly during 3rd quarter of the year, and significant PKR devaluation against USD leading to the increase in the prices of all packing material and other general /store supplies etc.

Increase in distribution expense is mainly attributable to higher POL prices prevalent during the period under review as compared with POL prices prevalent in same period last year. Similarly increase in financial cost is attributable to higher KIBOR rate prevalent in the period under review as compared with the borrowing rates in the same period last year.

In view of the aforesaid economic and operational highlights, your company has posted a profit after tax of Rs. 647 million during the nine months period of the current financial year translating into Earing Per Share (EPS) of Rs. 30.18 as against profit after tax of Rs. 569 million with Earning Per Share (EPS) of Rs. 26.57 during the corresponding period last year.

FUTURE OUTLOOK:

As briefed in our last quarter's Director's report that part of the civil work on expansion of coal fired power plant (CFPP) is in progress and major LCs of BTG Equipment (Boiler, Turbine and Generator) have already been established with banks, while LCs / local procurement of remainder equipment is under design vetting phase. Part of the shipments of BTG items will be received by the end of the current financial year. Since the company has designed the project on both local lignite coal (Thar coal) as well as imported bituminous coal thus the company is also in contact with coal mining company to ensure the supply of local coal as fuel after completion of the project. Your management is cognizant of the impact of higher financial cost associated with borrowings and existing economic challenges being faced by the country in terms of problems in opening LCs and thus monitoring the economic situation very closely.

Apart from problems in opening / retiring LCs of raw materials, plant & machinery, parts, spares etc., and ongoing political situation / uncertainties in the country, any further devaluation of PKR against USD, further increase in electricity tariff in coming months etc, could be anticipated as key challenges for the company in the remainder period of the current financial year.

ACKNOWLEDGMENTS:

We would like to extend our appreciations to our valued business partners and stakeholders for their continued support, cooperation and trust for the progress and prosperity of the Company. Company also appreciates its staff for their continuous dedication, commitment and support.

1.2 These condensed interim financial statements are presented in Pak Rupee, which is the Company's functional and presentation currency.

BASIS OF PREPARATION

- 2.1 These condensed interim financial statements of the Company for the nine months period ended March 31, 2023 have been prepared in accordance with the International Accounting Standard - 34 "Interim Financial Reporting" provisions of and directives issued under the Companies Act, 2017. In case where requirements differ, the provisions of or directives issued under the Companies Act, 2017 have been followed.
- These condensed interim financial statements should be read in conjunction with annual audited financial statements for the year ended June 30, 2022. Comparative statement of financial position is extracted from annual audited financial statement for the year ended June 30, 2022, whereas comparative statement of profit or loss, comparative statement of comprehensive income, comparative statement of changes in equity and comparative of statement of cash flows are stated from un-audited condensed interim financial statements for the nine months period ended March 31, 2023.
- These condensed interim financial statements are un-audited. However, a limited scope review has been performed by statutory auditor of the Company in accordance with Section 237 of Companies Act, 2017 and they have issued their review report thereon.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, ACCOUNTING ESTIMATES, JUDGMENTS AND RISK MANAGEMENT

The significant accounting policies and methods of computation adopted in preparation of these condensed interim financial statements are the same as those applied in preparation of the annual audited financial statements of the Company for the year ended June 30, 2022.

There are certain new standards, interpretations and amendments to the accounting and reporting standards that are mandatory for the company's annual accounting periods beginning on or after July 1, 2022. However, these will not have any significant effects on the company's operations and are, therefore, not detailed in these condensed interim financial statements.

CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of these consensed interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liablilities, income and expenses. Actual results may differ from these estimates.

In preparation these condensed interim financial statements, the significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to financial statements for year ended June 30, 2022.

7.2	FAIR VALUE OF FINANCIAL INSTRUMENTS			

7.3 FAIR VALUE OF FINANCIAL INSTRUMENTS

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as 'prices) 'or indirectly (that is, derived from prices).
- Level 3 Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The following table presents the fair value hierarchy for financial assets which are carried at fair value:
